

Dugong Rock – Lyrics and music by Peter Oliver

*I'm Doug, I'm a dugong and I live in the Bay
For years down there it's been OK
You've really got to dig that dugong scene
We eat seagrass its sweet and green
But the water's going muddy, the light is dim
There's not much seagrass - the future's grim
And all I wanna do- is the dugong rock!*

CHORUS

*Put your left hand high up in the air
Shake that seagrass from your hair
Put your right hand down and feel the sand
Move your tail to the dugong band
Roll to the left roll to the right
We're really gonna boogie tonight
We're really gonna do-the dugong rock! The dugong rock!*

*Well Our Water is joined up to your land
You've gotta help everybody understand
That by washing down the drains goes straight to the sea
And muddies up the water for my friends and me
So keep the soil in your paddock not in the creek
Put your litter in the bin, don't be a geek
So let's get down and do - the dugong rock!*

CHORUS

*Put your left hand high up in the air
Shake that seagrass from your hair
Put your right hand down gonna feel the sand
Move your tail to the dugong band
Roll to the left roll to the right
We're really gonna boogie tonight
We're really gonna do-the dugong rock!*

*I'm Doug, I'm a dugong and I live in the Bay
