

Your Frogs Need You!!

FIND·A·FROG

IN·FEBRUARY

Did you know 1/3 of frogs are under threat of extinction?!

Find a Frog in February provides an opportunity for the community to find frogs and contribute their records so we can all ensure frogs have a better future. Come to a workshop and survey to learn more, or visit our website!

Frogs are a vital component of our ecosystem and are easily affected by changes in the air, water and landthey are good indicators of environmental health.

Eva Ford, locally known as the 'Frog Lady' will show you how to be a *frogger* and submit your frog finding records. Learn about local species identification, frog hygiene and how to help your frogs.
