Establishing koala habitat connectivity in the Gympie Regional Council area in 2019

Expression of Interest:

1. Please tell us why you want to plant some koala food trees on your property eg – have you seen koalas in your local area or on your own property or are you connecting to an existing habitat?

   ………

   ………

   ………

2. How large is your property? How many trees can you plant and manage? (Maintenance of the seedlings including watering and weeding should be undertaken regularly for at least 12 months to ensure the survival of the seedlings and optimum growth rates.)

3. Do you need advice or assistance with your project? We can provide a brochure, or visit your property……….

   ……….

4. Please provide before and after photos of your planting. Email to koalas@mrccc.org.au

5. Please participate in our citizen-science project gathering data on local koala populations. Details of how to record your koala sighting are on the back of this form.

6. Would you like to receive mail/emails about koalas and current projects in the Gympie region?   Yes   No

7. How did you hear about the 2019 Koala Trees for Koala habitat offer from KAGR?
   Social media   Newspaper   Word of Mouth   Other

KAGR Coordinator Michelle Daly can be contacted on 07 5483 5242.

Voucher number ………. issued for ………….… trees on …………………………………………

WHY report koala sightings? The koala is on the threatened species list as 'vulnerable' to extinction. Citizen Science (your observations) provides data that can guide conservation efforts and influence decision-makers and planners.

HOW do I report my koala sighting? If you see a koala anywhere, observe it quietly, check it is healthy and safe (call for advise if unsure) and record and report the sighting. (Get a photo if you can)

If you have a computer at home: go to Koala Tracker, the user-friendly citizen-science site for koala sightings. www.koalatracker.com.au Join up, and record your sighting. You can also upload photos.

Once you have done that, please drop us a quick email so we know there is a new sighting! (koalas@mrccc.org.au) or message us on Facebook. We can then enter your koala sighting into the State Government 'Wildnet' data base.

If you do not have a computer: You can either fill in the sighting form below, or write down all the details, add a mud-map and scan/email or post to MRCCC, 25 Stewart Tce, Gympie 4570

✂ ....

Your Name: ....……

Date of sighting...…..

Phone/Email..……

Location of sighting ....…...

Add a GPS reading if you know it -available from Google Earth or from a GPS on a smart phone

Latitude: | | | **Degrees** | | | **'** **Minutes** | | | **.** | | **"** | **Seconds** |

Longitude: | | | **Degrees** | | | **'** **Minutes** | | | **.** | | **"** | **Seconds** |

Please enter latitude and longitude in Degrees/Minutes/Seconds format (eg 26º51'24.33"). If using Google Earth, click on Tools, Options then under "Show Lats/Longs" select Degrees/Minutes/Seconds, then click on Apply, then Ok.

Notes :eg male, female, joey, sick/Injured/healthy. Situation eg what tree species it was in, what sort of habitat?
