

Significant Trees in the Mary River catchment

Do you know of any notable trees in your neck of the woods?

Please help the Mary River Catchment Coordinating Committee (MRCCC) establish a register of significant trees in the Mary River catchment. Individuals, organisations, industry groups and government agencies are invited to submit records of significant trees for inclusion in the register, to raise community awareness and improve protection and maintenance of significant trees in our region.

Fill out the form below and mail to PO Box 1027, Gympie, 4570 or scan and email to admin@mrccc.org.au

Fill in the details below ✂

Your Name:..... Date

Best Contact Details.....

Species (if known).....

Location of tree (address) and/or

Latitude:

| | | | | | | | | | | | | | |
|--|--|---------|--|--|---|---------|--|--|---|--|--|---|---------|
| | | Degrees | | | ' | Minutes | | | . | | | " | Seconds |
|--|--|---------|--|--|---|---------|--|--|---|--|--|---|---------|

Longitude:

| | | | | | | | | | | | | | |
|--|--|---------|--|--|---|---------|--|--|---|--|--|---|---------|
| | | Degrees | | | ' | Minutes | | | . | | | " | Seconds |
|--|--|---------|--|--|---|---------|--|--|---|--|--|---|---------|

**Please enter latitude and longitude in Degrees/Minutes/Seconds format (eg 26°51'24.33"). If using Google Earth, click on Tools, Options then under "Show Lats/Longs" select Degrees/Minutes/Seconds, then click on Apply, then Ok.*

Height if known Circumference or Diameter at breast height if known
