

# FIND A FROG

## IN FEBRUARY

### Find a Frog in February Survey Area 2022

## MARY RIVER

## CATCHMENT

### COORDINATING COMMITTEE

**Community assistance is needed** to find out where our frogs are living in and around the Mary River catchment (from Maleny to Hervey Bay and west to Conondale and Kilkivan) and coastal areas from Caloundra to Burrum Heads and K'Gari.

**Frogs are a vital component of ecosystems** and are easily affected by changes in the air, water and land: they are good indicators of the environmental health of our region! But they are in trouble world-wide due to habitat loss, pollution and disease.

**We can ALL help them if we know where they live!**

### If you live in:

Sunshine Coast, Noosa, Gympie and Fraser Coast Council regions, get involved in community frog monitoring every February. Collect data to help improve the plight of frogs through awareness and thoughtful management.

### Step into your own outdoor adventure!

You don't need to be able to identify frogs, just record your observations, take photos and/or record their calls. Send to the MRCCC for identification, or submit via the FFF group in iNaturalist, or send calls to FrogID (find the Frog Finder's Guide on the FFF web page).

### How?

Use the Record Sheet that is available through the MRCCC Find a Frog in February website or call our office (see below). The website contains instructions, useful frog information and workshop dates.

All records will be stored in the WildNet database (Q'ld Government) where it can be accessed by researchers, environmental planners and anyone who is interested in frog business.

A copy of the Queensland Museum Pocket Guide **'Frogs of South-East Queensland'** or a Boomerang Bag is available to all first-time Frog Finders.
