

# Broad-palmed rocketfrog

## *Litoria latopalmata*

Photo : Eva Ford, MRCCC

- Very streamlined medium sized frog with strong back legs for long leaps.
- Male's call is very like the Striped rocketfrog but they are very different in looks.
- Is normally uniform pale to dark grey but sometimes has irregular dark markings on its back.
- Occurs in wide variety of habitats including open forest, woodland, streams, dams, swamps, temporary ponds and marshes.
